

Our Mission

St. John Eudes School is a Catholic co-educational school of the Archdiocese of Los Angeles that serves children from Transitional Kindergarten through Eighth Grade. The school's mission is to educate students to live as committed followers of Jesus Christ as faithful members of the Catholic Church and to succeed in the 21st century as responsible learners, productive leaders, and caring citizens of their communities and environment. Inspired by the charisma of St. John Eudes, we continue the work of St. Paula Montal by supporting families in teaching our Catholic faith and fostering Christian service. We guide children with knowledge and the love of God to empower them with Christian morality, character, compassion, and integrity.

Accreditation

St. John Eudes School is a member of the National Catholic Educational Association and is fully accredited by the Western Association of Schools and Colleges (WASC), as well as the Western Catholic Educational Association (WCEA). SJE School is a recognized leader in Catholic education and in providing students exceptional opportunities for achievement.

Curriculum & Expectations

Students study a core curriculum corresponding to frameworks in English, reading, spelling, science, social studies, handwriting, art, math, religion, and physical education. Students benefit from the individualized attention they receive and from the high expectations that teachers and parents hold for them to do their best. And although our students consistently score higher than national averages on standardized testing, each student is valued for their own unique gifts and not just for their academic standing – a reflection of the sense of individual dignity which is central to the mission of the school.

Christian Values

Faith Focused

The Sisters of the Pious Schools are our founding religious community, teaching and guiding thousands of children in the spirit of St. Paula Montal "to save families, teaching children the love of God." Our school continues to reflect this mission – joy in teaching, fostering the dignity of each person, and building family life. These values are reinforced by behavior standards in and outside the classroom. And students are expected to care for one another as an expression of their faith.

Our Faculty

The religious and lay staff has received degrees from various American and international universities, and are credentialed by the State of California. Continuous development of teaching skills and techniques, through participation in professional advancement seminars and workshops, is the cornerstone of maintaining a nurturing, dynamic, and advanced educational curriculum at St. John Eudes School.
